CONSTRUCTION AND DEMOLITION WASTE ACCEPTANCE FORM

To protect the health and safety of our employees and customers, all loads of construction, remodeling and demolition waste brought to the South Lincoln Recycling & Transfer Center/Toledo Recycling & Transfer Center is screened before, during, and after unloading, for materials that may contain asbestos. This form is required for all such loads of waste that contain construction and demolition waste.

Analytical test results are required for the following products commonly known to contain asbestos:

- **Interior walls and ceilings:** acoustical tiles, glue dots, plaster, and textured surfaces
- **Exterior walls:** cement siding, stucco
- **Flooring:** vinyl tiles, sheet vinyl, some mastic adhesives
- **Insulation/fireproofing:** block, boiler, spray-applied, vermiculite, monokote, sink undercoating, thermal system insulation (fiberglass, cellulose, and mineral wool are exempt)
- **Gaskets:** furnace, mechanical, boiler, wood stove (automotive gaskets are exempt)
- **Heating:** white paper or seam tape on ducts, air-duct cement and insulation
- **Roofing materials:** tar paper, felt, silver/white roofing paint, Nicolite paper, flat/built up roofing, typically with layers of roofing (built-up) that has been a mopped on asphaltic material on top of the petroleum-based felt-type/rolled roofing material, has to have test results showing it has no asbestos in it, regardless of when it was constructed.
Note: three-tab composition shingles do not contain asbestos
- **Fire doors, fire/kiln brick and fireproofing**
- **Various compounds:** window glazing, adhesives, caulks, patching, mastics, vapor barrier products (plastic or synthetic materials such as Tyvek are exempt)
- **Electrical:** switch gear, circuit boxes and fuse panels; wiring with cloth insulation (Romex wiring is exempt)

INSTRUCTIONS FOR FILLING OUT THIS FORM

- This form is required for all loads containing construction, demolition, or renovation material.
- This form should be completed by the person responsible for and knowledgeable about the contents of the load.
- For multiple-load projects, copies of this form will be accepted, but the contents of the load must match the description of the waste materials on the form.

All parties involved (generator, contractor, and hauler) may be held responsible for the abatement of positive (greater than one percent asbestos by weight) asbestos-containing materials unloaded at the transfer stations, including but not limited to the costs for testing, a licensed abatement contractor, fines, and administration.

CONSTRUCTION AND DEMOLITION WASTE ACCEPTANCE FORM

1. When did the construction, demolition, or renovation materials originate from the structure or RV?
- Is the material from a **commercial renovation or demolition project**? (proceed to #2)
 - Was the material constructed after Jan 1, 2004 (skip to #3, you do not need an asbestos survey)
 - Is the material bare wood, metal, glass, or three-tab composition shingles with no tar paper? (skip to #3, you do not need an asbestos survey)
 - Was the material constructed before Jan 1, 2004 (proceed to #2)
 - Is the material flat/built-up roofing, typically with layers of roofing (built-up) that has a mopped on asphaltic material on top of the petroleum-based felt-type/rolled roofing material? (proceed to #2)

2. Was an asbestos survey conducted?
- Yes-if yes, attach the survey. A survey was conducted, if there was any asbestos containing materials (ACM), they were identified in the survey, and submittal of this form is my statement that the ACM materials are not present in this load. Proceed to #4.
 - No -**if no, a survey must be conducted on construction, demolition, or renovation debris constructed before 1/1/2004 and all commercial renovation or demolition project. We are sorry, we cannot accept your load without a survey.**

3. Material was constructed after Jan 1, 2004; therefore, no survey is required, and I verify there is no asbestos containing material present in this load.

Address of work site: _____

Property owner: _____

Phone: _____

Mailing address (if different than work site): _____

4. Hauled by:

- Dahl Disposal Service Drop Box
- Self-Hauling
- Construction Contractor

License plate number of hauling vehicle (not needed if it's a drop box): _____

Name of Contractor: _____

Contact Name: _____

Phone Number: _____

5. Description of waste: (example- roofing, siding, decking, bathroom, flooring, whole house...)

6. Certification: I certify that the above information is true and correct to the best of my knowledge, and that the documentation presented represents the materials delivered to South Lincoln Recycling & Transfer Center/Toledo Recycling & Transfer Center. I also attest that the waste materials in this load do not contain asbestos.
